

MITEL

Your Assistant | Video / Data Collaboration

Real-time conferencing and collaboration. Where you want it. When you want it.

The Mitel® Your Assistant™ Video / Data Collaboration module with USB webcam video brings distributed and integrated enterprise collaboration to a whole new level. Now, with full presence availability, video communication and data collaboration, real-time communications are available from the office, the home or the remote mobile location of choice, all in a secure environment and without the encumbrance of hosted, expensive, by-the-minute charges.

Give The People What They Want! When They Want It!

The Your Assistant Video / Data Collaboration module removes the complexity and cost of a hosted web conferencing solution and ties Your Assistant voice connectivity with full web conferencing and collaboration capabilities. Now, anyone within your organization that has a Your Assistant license can create on-the-fly collaboration and conferencing sessions with other colleagues within the organization or with anyone externally, wherever they may be. Enjoy the benefits of multi-party, multi-location, full collaboration and web conferencing without paying for hosted services. Its simple setup lets you kick-start your collaboration meetings within minutes. No more calling your web hosting provider, booking time, detailing the number of participants and paying for fixed periods. Simply invite as many people as you want whenever you want from wherever you want and enjoy instant "collaboration gratification".

Industry Leading Partnership Solution

Winner of Network Computing "Editor's Choice Award" for Best Enterprise IM Software (September 2004), listed in the Gartner Magic Quadrant for Leadership and Visionary Strength in Instant Messaging and Web Conferencing (May 2004), the Your Assistant solution and associated Video / Data Collaboration module delivers all the features you want and need to maximize performance and minimize cost.

it's about **YOU**

Features

Enabling unprecedented control over your business communications, Your Assistant multi-features include:

- **Video Collaboration** – Up to 20-party webcam video connectivity; any USB webcam video*
- **Desktop Sharing** – Perfect for training / distance learning without leaving your office or city
- **Application Sharing** – Perfect for multi-party collaboration on Microsoft® Excel, PowerPoint, Word or any other type of document requiring multi-party input
- **Whiteboarding**
- **Remote PC Control** – Minimize support costs by requesting control of a participant's desktop to help configure their PC from a remote location
- **Chat** – Initiate chat with a select group or all individuals contained within the collaboration session
- **Public Address Access** – Invite non-Your Assistant individuals into a multi-party / multi-location conferencing / collaboration session with full video capability via a secure internal website address
- **Collaboration Recording** – Enable collaboration and data sharing sessions to be recorded, stored and used for future playback. Perfect for employees who cannot attend meetings

The Your Assistant Video / Data Collaboration module is available in English (U.K. and North American), French (Canadian and European), Dutch, Italian, German, Spanish (European and Latin American) and Portuguese (European).

Benefits

Benefits extend far and wide for this secure, real-time enterprise collaboration. Key benefits include:

- Enhances effectiveness of communications at all levels
- Minimizes travel costs and related expenses
- Enables user to fully engage prospects, customers, suppliers and vendors over any distance
- Enables interactive training efficiently, regardless of time zone or logistic constraints
- Supports a distributed workforce easily and cost-effectively
- Provides one-click escalation from IM conversation to a web conference with integrated voice and video
- Reaches or includes any participant based on integrated Your Assistant presence and availability notification
- Provides one-stop-shop for voice, video, IM / presence data collaboration via Your Assistant

* Webcams that are USB 2.0 or FireWire compatible are highly recommended as they reduce the load on the CPU.

Server Guidelines			
Hardware	50 Concurrent Users	250 Concurrent Users	500 Concurrent Users
CPU	Pentium 4 1.8 GHz	Pentium 4 3 GHz	Pentium 4 3 GHz
RAM	Fast Disk Subsystem	1 GB	2 GB
Disk	Fast Disk Subsystem	Fast Disk Subsystem	Fast Disk Subsystem
Network Interface Card	Full Duplex 100 Mbps	Full Duplex 100 Mbps	Full Duplex 100 Mbps
Supported OS's	Windows Server 2000 Standard	Windows Server 2000 Standard	Windows Server 2000 Enterprise
	Windows Server 2000 Enterprise	Windows Server 2000 Enterprise	Windows Server 2003 Enterprise
	Windows Server 2003 Web	Windows Server 2003 Standard	
	Windows Server 2003 Standard	Windows Server 2003 Enterprise	
	Windows Server 2003 Enterprise		

The number of collaboration video sessions visible simultaneously is 20. However, the recommendation is five, dependent on available bandwidth and performance of PC. Please consult the Your Assistant collaboration user and administration guide available from Mitel OnLine for more details on the above system requirements.

MITEL it's about **YOU**

Companies don't make decisions, people do. That is why Mitel is leading the way toward a new and more personalized approach to communications for enterprise and small business. Our innovative solutions, applications and desktop appliances enable you to access, process and control your communications and information naturally, simply and efficiently.

Our solutions allow you to collaborate over distance and time and to interact with your customers, colleagues and partners as never before. By combining the power of voice, data and video over converged high speed networks, Mitel provides you with flexible and personalized tools that let you leverage the latest advances for personal and organizational advantage.
